

New Actions & Approvals Tile

Approvers can now access relevant approvals from one tile in Firefly. Previously titled *Workflow Inbox*, *Actions & Approvals* contains several approval/actions tiles, including *Leave Approvals*, *Timesheet Approvals*, and *Travel/Non-Travel Approvals*. The *Actions & Approvals* tile contains a counter to indicate the total number of pending approvals.

Note: available tiles are dependent on current access by the approver.

Application tiles shown with pending approvals. **Note:** these tiles *do not* replace the current tiles within the application area.
