

## Check Your Flexible Spending Account Balances

Do you know how much you have left in your flexible spending account(s)? Click the WageWorks tile in Firefly to launch the WageWorks website to display balances and view specific claims that have already been submitted.

Just a reminder that health and dependent care expenses must be incurred by December 31, 2022, to be considered for payment utilizing 2022 Flexible Spending Account funds. Expenses must be submitted for reimbursement by March 31, 2023. After March 31, 2023, any remaining **dependent care** flexible spending amounts will be forfeited. Any unspent 2022 calendar year contributions for **health care** (up to \$570) will carry over to the 2023 calendar year. (Note: This action may not be permitted by the IRS for the following year, so please plan accordingly.)
